Index

A

Absolute value, 306
Addition
  of fractions, 4
  of mixed numbers, 8–10, 13–14, 16–18, 37
  of polynomials, 102–12, 130
  of rational numbers, 50–51
Algebraic expressions
  binomials, 105
  evaluation of, 33–34, 73–74, 86–88
  finding missing terms, 106–7, 116
  in fraction form, 34
  modeling, 76–80, 113–14
  monomials, 105, 113–18
  polynomials, 102–12
    multiplication of, 113–18
    simplifying, 119–27
  representing relations with, 143
  simplifying, 86, 105–6, 107, 119–27, 128
  trinomials, 105
  with two variables, 86–88
  writing, 76–77, 105–6
Algebraic reasoning, 107, 120
Algebraic terms, 77, 78
Algebra tiles, 102–7, 113, 121, 128
Analytic geometry
  equation of a line, 260–71, 285–94
  parallel lines, 295–305
  perpendicular lines, 295–305
  slope of a line, 272–80
Angle properties
  of parallel lines, 385
  of polygons, 391–96
Angles
  concave, 391
  convex, 391
  exterior, 384–85, 391, 397
  interior, 384–85, 388–90, 397, 416
  straight, 384
Area
  See also Surface area
  of composite shapes, 434–41, 459
  of rectangles, 428–33, 458
  of squares, 78–79
Area models, 5, 23–24, 28, 38
  calculating products with, 72
  of polynomials, 113–14, 129

B

Balancing equations, 192, 199
Base, 424
BEDMAS (memory aid), 33
Bimedians, 410, 412–13
Binomials, 105
Brackets (), 24, 33–34, 78
Break-even point, 242

C

Calculators
  fractional operations on, 14
  graphing, 145, 199, 240, 243–44, 265–66, 324, 430, 478–79
  order of operations with, 33
  rational number operations on, 50, 59
Cartesian coordinate system, 138–39
Celsius, conversion to Fahrenheit, 48
Centroid, 410–11
Chapter reviews, 65–67, 128–32, 182–84, 248–51, 307–10, 373–75, 416–19, 482–85
Chapter self-tests, 68, 133–34, 185, 252, 311–12, 376–77, 420, 486
Chapter tasks, 69, 135, 186, 253, 312, 378, 421, 487
Coefficients, 77
Collinear points, 276
Common denominators, 4, 5, 9
  division of mixed numbers using, 22
  solving equations with, 215–16
Composite shapes, 434–41, 459
Computer spreadsheets, 120
Concave polygons, 391
Cones
  slant height of, 444
  surface area of, 452–54, 459
  volume of, 461–65, 482
Conjectures
  about polygons, 411–13
  about quadrilaterals, 399, 402–8
  based on numeric examples, 84–85
  confirming, 404, 406
  counterexamples and, 402, 404, 407
  forming and testing, 402, 411–12
  rejecting, 354–57, 360, 404
  revising, 403, 405
  supporting, 357–59, 403
  testing, 373, 402, 405, 406, 411–12
  verifying, 354–57
Continuous data, 144, 165, 322, 325, 341
Convex polygons, 391, 397
Coordinate system, Cartesian, 138–39
Counterexamples, 402, 404, 407
Cubes
  surface area, 424
  volume of, 78, 144, 424
Cumulative review, 187–89, 379–81, 488–90
Curves of best fit, 344–53, 356–57, 359, 373
Cylinders
  optimum measures of, 474–81, 483
  surface area of, 425
  volume of, 73, 425

D

Data
  conjectures about, 354–60, 373
  continuous, 144, 165, 322, 325, 341
  curves of best fit for, 344–53
  discrete, 143, 322, 323–24, 341
  interpretation of, 322–29
  outliers, 357–58
  reasoning about, 354–62
  representing, with lines of best fit, 330–39
  in scatter plots. *See* Scatter plots
  trends, 331, 333–35, 346–48
Decimals
  with exponents, 88
  rational numbers as, 43, 59–60
Degree of a term, 77
Delta, 153
Denominators
  common, 4, 5, 9, 22, 215–16
  lowest common, 13
Dependent variables, 142
Diagonal properties, 399–401, 416
Diagrams, representing products using, 114
Direct variations, 150–51, 161
Discrete data, 143, 322, 323–24, 341
Displacement, 368, 373
Distance, from point to a line, 306
Distance problems, 88–89, 363–64
Distributive property, 114–16, 121–24, 129, 130
Division
  of mixed numbers, 20–30, 38–39
  of powers, 83–91

E

Equations
  See also Linear equations
  equivalent, 206, 215–16, 226–27
  of lines, 260–63, 281–82
    determining, 307–8, 317–18
    forms of, 264–71
    graphing, 165–69
    parallel, 295–96
    perpendicular, 295–96
    problem-solving using, 289–90
    using points to determine, 285–94
  for lines of best fit, 342
  of nonlinear relations, 175
  problem-solving strategies for, 192–93, 213–23
  problem-solving using, 193, 267–68, 332–33
  rearranging, 234–35
  with variables on both sides, 213–19, 225–26
  writing, 145, 332–33
Equilateral triangles, 387
Equivalent equations, 206, 215–16, 226–27
Equivalent fractions
  addition of mixed numbers using, 8–9
  subtraction of mixed numbers using, 11, 14
Expanded form, 83–84
Exponent principles, 85–89, 94–95, 100, 123

Exponents, 25
See also Powers
expressions with, 83–89
fractions with, 87
Expressions
See also Algebraic expressions
evaluation of
integer, 31–34, 39
with rational numbers, 48–53, 57–62, 65
with two variables, 86–88
order of operations with, 31–34, 39
with powers, 32–33, 39, 83–89, 92–98, 100
simplifying, 83–84, 92–98, 100
Exterior angles, 384–85, 391, 397
Extrapolate, 173, 331

F

Factors, finding missing, 116
Fahrenheit, conversion Celsius, 48
First difference, 152
Formulas
distance, 88
hypotenuse of right triangle, 445
for length of leg of right triangle, 445
perimeter of a polygon, 439
perimeter of a rectangle, 120
simple interest, 234–35
slope, 274, 275
surface area, 424–25, 454, 470
temperature conversion, 48
velocity, 368
volume, 73, 424–25, 463, 464, 470
Fraction patterns, 7
Fractions
addition of, 4
equivalent, 8–9, 11, 14
with exponents, 87
improper, 10, 12, 21, 24, 37–39
multiplication of, 5
rational numbers as, 60
subtraction of, 5
Fraction strips, 4, 5

G

Google, 99
Googol, 99
Googolplex, 99
Graphing calculators, 33, 145, 177, 199, 240, 243–44, 265–66, 324, 430, 478–79
Graphs
See also Scatter plots
of continuous data, 325
of curves of best fit, 344–53
describing situations using, 363–72, 373
of discrete data, 323–24
drawing, 192
estimating values with, 144–45
of linear relations, 164–69, 173, 182, 197, 198, 224
of lines, 150–56, 162, 260–63, 265, 273, 274, 301–2
of lines of best fit, 330–39
of nonlinear relations, 174, 178, 364–65
problem-solving using, 239–47, 335–36, 476–77
reasoning about, 366–67
representing relations with, 143, 144–45
table of values and, 167–68
Greater than > symbol, 46
Guess-and-test strategy, 214, 230–31

H

Heat, 473
Heptagons, 389, 397
Hexagons, 389, 438
Horizontal lines, 262
Hypotenuse, 97, 425, 442, 443, 445

I

Imperial units, 13–14, 19
Improper fractions
addition of mixed numbers using, 10
division of mixed numbers using, 38–39
multiplying mixed numbers using, 21, 24, 37
subtraction of mixed numbers using, 12
Inches, 19
Independent variables, 142, 165
Inspection, 192
Integer expressions
evaluation of, 31–34, 39
order of operations with, 31–34
Integers, 44
Intercepts, 165–67, 168–69
Interest, simple, 234–35
Interior angles, 384–85, 388–90, 397, 416
Interpolate, 144, 331
Inverse operations
isolating variables with, 257
solving equations with, 215–19, 225–26
solving linear equations using, 205–12, 225, 230–38
Isolating terms, 206
Isosceles trapezoid, 400, 417

K

Kassner, Edward, 99
Kites, 399, 400, 417

L

Large numbers, 88–89, 99
Least common multiple (LCM), 9
Length measurements, 13–14, 19
Less than < symbols, 46
Like terms, 103, 109
Linear equations
See also Equations
defined, 197
determining number of solutions to, 243
interpreting solutions of, 196–204, 224
problem-solving using, 200, 208
solving
with algebra, 199
graphically, 239–47
by graphing, 198
with inverse operations, 205–12, 225
using table of values, 196
systems of, 239–47
verifying solutions of, 225
Linear relations, 150–51, 161
equations representing, 264–71
equivalent, 164–71
graphs of, 164–69, 173, 182, 197, 198, 224
in human body, 172
identifying, 176
vs. nonlinear relations, 173–81
properties of, 152–59
rate of change of, 152–55, 162
representing, 142–49
scatter plots representing, 139–41
solving
using inverse operations, 230–38
for a variable, 230–38, 248
table of values representing, 139–41
Lines
distance from a point to, 306
equations of, 260–63, 281–82
determining, 307–8, 317–18
forms of, 264–71
graphing, 165–69
problem-solving using, 289–90
using points to determine, 285–94
graphs of, 150–56, 162, 273, 274
parallel, 257, 295–305, 308
perpendicular, 257, 295–305, 308
point of intersection of two, 241, 249
points of, 285–94
slope of, 152, 162, 260–63, 267, 272–81
Lines of best fit, 330–42, 354–55, 357–58
Logical reasoning, 192
Lowest common denominator (LCD), 13

M

Measurement
of composite shapes, 434–41
of cones, 461–65
of length, 13–14, 19
optimum measures, 428–33, 474–81, 483
of pyramids, 461–65
of rectangles, 428–33
of spheres, 466–72
of surface area, 448–57
using Pythagorean theorem, 442–47
of volume, 461–72
Median, 340, 404, 407
Memory aids, 33
Metric system, 19

Mid-chapter reviews, 37–40, 100–101, 160–63, 224–29, 281–84, 341–43, 397–98, 458–60
Midpoints, 402, 409, 417
Midsegments, 402–4, 407, 409, 417
Mixed numbers
addition of, 8–10, 13–14, 16–18, 37
division of, 20–30, 38–39
multiplication of, 20–30, 37–38
powers of, 25
renaming, 37, 38–39
subtraction of, 11–18, 37
Models
of algebraic expressions, 76–78, 113–14
algebra tiles, 102–7, 113, 121, 128
area, 5, 23–24, 28, 38, 72, 129
of polynomials, 102–7
of powers, 100
Monomials, 105, 113–18, 129
Movement problems, 363–68
Multi-digit numbers, multiplication of, 72
Multiplication
of fractions, 5
of mixed numbers, 20–30, 37–38
of multi-digit numbers, 72
of polynomials by mononomials, 113–18
of powers, 83–91
using area models, 72

N

Natural numbers, 44
Negative decimal bases, evaluation of expressions with, 59–60
Negative fraction bases, evaluation of expressions with, 60
Negative reciprocals, 297, 299, 302
Negative slope, 262
Nets, 449–50
N-gons, 389–90, 416
Nonlinear relations, 173–81
equations of, 175
evaluation of, 182
graphs of, 174, 178, 364–65
identifying, 176
slopes of, 178
table of values and, 174
Number lines
addition of fractions on, 4, 13
division of mixed numbers using, 22
mixed numbers on, 13, 22
rational numbers on, 41–42, 44, 57
subtraction of fractions on, 5, 13
Numbers
See also Mixed numbers; Rational numbers
integers, 44
multi-digit, 72
natural, 44
opposite, 41–42
whole, 44

O

Octagons, 389, 392
Operations
order of, 31–34, 39, 51–52, 59
with rational numbers, 48–53
Opposites, 41–42
Optimum measures, 428–33, 474–81, 483
Ordered pairs, 140, 150–51, 230–31
Order of operations, 31–34, 39, 51–52, 59
Outliers, 357–58

P

Paper folding, 75
Parallel lines, 257, 295–305
angle properties of, 385
equations of, 295–96, 299–300, 308
slope of, 297–300
Parallelograms, 400, 403, 407, 417
Partial variations, 150–51, 161
Patterns
See also Trends

Subtraction strategy, 437
Surface area
of cones, 452–54, 459
of a cylinder, 425
formula for, 424–25
heat and, 473
optimum, 474–75, 476–81, 483
of right pyramids, 448–52, 454, 459
of a sphere, 466–72, 483
Systematic trial, 192
System of linear equations, 239–47

T

Table of values, 139–42, 153–54, 162, 167–68, 341
of discrete data, 323
of nonlinear relations, 174
to solve linear equations, 196
Technology
calculators, 14, 33, 50, 145
graphing, 33, 145, 177, 199, 240, 243–44, 265–66, 324, 430, 478–79
spreadsheets, 120
Temperature problems, 41–42, 48–49, 52
Terms
isolating, 206
like, 103, 109
Trapezoids, 400, 412–13
Trends, 331, 333–35, 346–48
conjectures about, 354–61
Triangles
angles of, 384–85, 389
bimedians of, 410
centroid of, 410–11
equilateral, 387
hypotenuse of, 425, 442, 443, 445
midsegments of, 407, 409
properties of, 410–15
Pythagorean theorem, 442–47
right, 425, 438, 444
Trinomials, 105

U

Units of measurement, 13–14, 19

V

Variables
conjectures about, 354–57
dependent, 142
independent, 142
isolating, 206, 215–16, 257
relations between, 142–49, 160
solving for, in a linear relation, 230–38
solving for, in terms of other variables, 232–34, 248
Variations
direct, 150–51, 161
independent, 165
partial, 150–51, 161
Velocity, 368, 373
Vertical lines, 262
Visualization strategy, 468–69
Volume
of a cone, 461–65, 482
of a cube, 78, 144, 424
of a cylinder, 73, 425
formula for, 424–25
optimum, 474–81, 483
of a pyramid, 461–65, 482
of a sphere, 466–72, 483

W

Whole numbers, 44
Word association charts, 74
Word problems
solving with linear equations, 200, 208
use equations to solve, 193, 218–19

X

X-axis, 138–39
X-intercept, 153, 165–69, 199

Y

Y-axis, 138–39, 260
Y-intercept, 150, 165–69, 262, 265, 281
determining, 267, 286–89, 300, 301
finding equation of a line from, 317

Z

Zero principle, 102
